External Display

EC-II SERIES

Counting Scale

The EC-II provides the features you need for counting and weighing and is available in four capacities from 3 to 30kg. With Dual Channel, connecting a second platform to expand your capacity is easy. 4 optional devices can be used simultaneously.
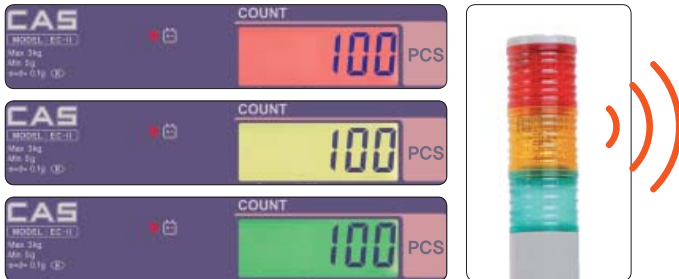

- Dual Channel, connect to remote devices
- LCD display with 3 different colour backlights
- HI/LO limit function with alarm beeps
- 200 Items memory

EC-II SERIES | Counting Scale

Comparison function with alarm beeps (HI/OK/LO)

EC-II series offer the most effiecient control solution by using a preset range for weight & count data. Operators can preset the range of weight & count data, then the EC-II series will indicate whether the actual weight of the loaded items is in or out of the preset range with an alarm beep while the associated colour backlight will appear. The EC-II will also enable users to conduct a much faster and easier operation.

▲ Three backlight colors

▲ Light tower

Barcode label or ticket printer

The scale can be connected with a barcode label or ticket printer which prints out the data, weight, unit weight, quantity, tare, gross, item number, item name(ASCII code).
▲ Accumulation mode
