Can Do

Diverseco 
Can Do

BEST-OF-BREED TECHNOLOGIES. BEST PRACTICE ADVICE.

Manufacturers searching for industry-leading dosing/weighing, packaging, product inspection and palletising equipment systems need look no further than Diverseco. With Diverseco, you can source complete packaging line expertise and equipment from several of the world's leading manufacturers within the one company.

From manually operated, single head bagging machines to fully automated, sophisticated packaging lines that can package and inspect hundreds of items per minute, we possess the expertise, industry understandings and technologies to provide you the ideal solution for your needs.

WITH A LONG, STRONG TRACK RECORD OF WORKING WITH CUSTOMERS TO HELP THEM ACQUIRE NEW OPERATIONAL CAPABILITIES, YOU CAN BE CERTAIN THAT DIVERSECO CAN HELP YOUR COMPANY TO:

OPTIMISE OPERATIONS & PRODUCTION PROCESSES

INCREASE THROUGHPUT

IMPROVE PRODUCT QUALITY

REDUCE COSTS & PRODUCT GIVEAWAY

MEET REGULATORY REQUIREMENTS & REDUCE THE RISK OF A PRODUCT RECALL

REMOVE PRODUCTION BOTTLENECKS

ENHANCE EXISTING EQUIPMENT FUNCTIONALITY BY USING THE LATEST TECHNOLOGY

Diverseco can provide your company with 'out-of-the box' equipment through to fully customised complete turnkey solutions for both small-scale operations through to high-throughput, fully automated factories that work around the clock.

As authorised systems integrator for some of the world's most respected packaging and product inspection equipment manufacturers, Diverseco is well-positioned to equip you with best-of-breed technologies to meet your specific requirements.

"THEY ARE ON IT! OUT OF EVERYTHING THEY SUPPLY, THEIR INDUSTRY AND PRODUCT KNOWLEDGE IS MOST IMPORTANT. THEY REALLY KNOW WHAT THEY'RE DOING"

DIVERSECO SOLUTIONS | PRODUCTS

RETAIL PACKAGING

Improve the productivity and cost-effectiveness of your operations with innovative, quality equipment that is reliable, and easy-to-use and maintain. We offer a complete suite of customisable equipment, including:

- › Multi-head weighers and linear weighers
- › Auger fillers
- › Vertical form, fill and seal machines
- › Carton erectors and box sealers
- › Complete turnkey systems

PRODUCT INSPECTION EQUIPMENT

When product quality is your priority, nothing gets through our defences. With consumer health and safety of utmost concern, the supply of contaminated or defective products can have serious consequences when they hit supermarket or retail shelves. Product recalls are also expensive and can irreparably damage a brand and a company's reputation. Diverseco is a leading Australian systems integrator of the world's most sensitive, high performance checkweighers, metal detectors and x-ray machines. Our range of advanced, fully automated inspection systems reliably and continuously guarantee quality without restricting productivity and throughput rates.

BULK PACKAGING

Diverseco's diverse range of quality bulk bag filling equipment can accommodate all bagging and filling applications. Our best-of-breed packaging technologies can measure out product from a bulk supply by any predetermined value you require, whether that be volumetric, mass, count or a fill level in a container.

We offer a complete suite of customisable equipment, including:

- › Bulk bag filling systems
- › Vertical form, fill and seal machines
- › Bale packaging machines
- › Bag sealing machines
- › Complete turnkey bulk packaging lines.

PALLETISING LINES

Increase the speed of your palletising system by reducing or eliminating manual palletising. Diverseco's range of automated pallet dispensing equipment, robot palletisers and pallet wrappers can increase your productivity, as well as reducing WHS risks associated with manual handling activities.

SOFTWARE

Diverseco can provide custom or off-the-shelf software packages for your packaging line. Our software solutions enable you to better manage and optimise operations, including:

- › Increase operational visibility and rapidly respond to production issues using operational dashboards
- › Control or automation the entire packaging line using new line-integration technologies, such as a common Human Machine Interface (HMI)
- › Collect statistical data for reporting or ticketing purposes
- › Weighing automation and batching systems
- › Remote site access and control

DIVERSECO SOLUTIONS | PROFESSIONAL SERVICES

Business owners, managers, engineers and operations managers are facing a plethora of pressures, and notwithstanding increasing costs, chief among them is the constant demand for increased operational efficiency and throughput without compromising quality. Diverseco's team of business analysts and technical experts will help your company acquire new capabilities using equipment and technologies that will enable it to remain competitive by optimising overall operational performance.

YOU WILL BENEFIT FROM THE SUPERIOR SERVICE AND SPECIALIST SKILLS PROVIDED BY DIVERSECO'S TEAM OF BUSINESS ANALYSTS AND TECHNICAL EXPERTS WHO WILL DELIVER:

- › Expert specification, installation, start-up and optimisation of your equipment
- › Ongoing maintenance, calibration and optimisation
- › Rapid response repairs using original parts to minimise downtime
- › In-depth employee training by factory trained staff

TO REALISE YOUR PROJECT OBJECTIVES, WE WORK TO BEST PRACTICE PROJECT MANAGEMENT METHODOLOGIES, WHICH INCLUDE:

- › Determining your overall system goals, looking at each transfer point and ensuring that all components work in concert to achieve optimal output.
- › Sourcing insights and perspectives from cross-functional teams – operators, engineers and technicians.
- › Anticipating future requirements and applications, rather than just present needs, by way of equipment flexibility and versatility.
- › Exploring new and improved packaging technologies, many of which may be easier to implement than initially imagined.
- › Anticipating your needs for support, service and spare parts.
- › Training your teams.
- › Establishing a multi-functional project steering committee and culture that fosters clear, open communication between all project stakeholders.

SERVICES AND SUPPORT

Diverseco has unrivalled capacity to provide preventative maintenance services and rapidly respond to your emergency needs, even when these occur after hours. This is because our service centres in every mainland state are staffed by large teams of licensed, qualified tradespeople. Furthermore, we have immediate access to a large inventory of spare parts for the equipment we supply.

“ THERE'S A WORLD OF DIFFERENCE BETWEEN A SALES PERSON AND A CONSULTANT WHO'S FOCUSED ON SOLVING PROBLEMS. THESE GUYS REALLY KNOW THEIR STUFF. ”
