# DOOSAN ROBOT SERIES

DODSAN

# Almighty A-SERIES

DOCSAN

A-SERIES can go anywhere! With its superior speed and cost-effectiveness, A-SERIES promises a simple solution and a satisfaction to whom may be hesitant to get a cobot

Payload 5kg Reach 900mm

### A0912

Payload 9kg Reach 1200mm

> A0509s Payload 5kg

Reach 900mm

A0912s Payload 9kg Reach 1200mm

# A-SERIES KEY FEATURES

## A<sup>+</sup> Safety

The advanced safety algorithm ensures the safety beyond the limits of current-based collision detection technology

PL e Cat 4

Proven by the highest international safety level\*, trustful safe work environment is ensured

\*Performance Level Emergency Stop, Safe Torque Off (STO), and Safe Brake Control (SBC)

## **A+ Customization**

Customers have a choice of High-tech force sensor model for more delicate tasks requiring human like dexterity

×2

Force control accuracy of FTS(Force Torque Sensor) is twice as high as competitors, ensuring higher performanceand outcome

## A<sup>+</sup> Speed

The high-end hardware, created by Doosan's world class technology, promises quick and flawless performance on any task with the highest speed in the industry along with the remarkable acceleration

×2

Twice faster joint speed enhances productivity, efficiency and effectiveness on any tasks

### A<sup>+</sup> ROI

Reduced cycle time and excellent cost-effectiveness promises the shortest time for your ROI

10%

10% faster work speed on average combined with competitive price shortens your ROI period

# MAIN **APPLICATIONS**

Scan the QR Code for more Doosan Robot Applications

### **Machine Tending**

A0509 · A0912

Feed the CNC machine and load/unload the subject into the pallet

### **Pick & Place**

Simple loading/unloading work such as moving objects between tasks

### Packaging

Quick product packaging and transporting tasks in electronic, material handling and plastic industry

Upsood

100

### Inspection

Inspecting internal /external defects and assembly quality

### **Air Blowing**

AND IN COLUMN AND ADDRESS OF

Exterior cleaning of finished products or workpieces with spiral spray motion and multi-angle composite spray motion

**Doosan Robotics** 

### **Gluing and Bonding**

Spraying of consistent amount of adhesive for gluing and bonding

### Polishing & Deburring

Burr removal and surface polishing after processing

### Assembly

Traditional assembly tasks like screw driving and gear assembling

A0509s · A0912s

## **A-SERIES: ROBOT SYSTEM**

Experience the best robot system with stable and immaculate controllability

### **DART Platform**

DART Platform, the Doosan Robotics user software, enables robot teaching along with the wide range of programming actions on a PC environment

A separate PC is required for installation and use of the DART platform

### **OPTIONS**

### OPTION ()

A simple interface with commonly used function buttons including Home Position, Servo ON/OFF and Start/Stop for easy controlling

If Smart Pendant is installed, a separate PC is required to run the DART Platform

### 01 **Robot Arm**

Our six-axis multi-joint robot arm maintains excellent stability with overwhelming speed and an advanced safety algorithm

### Emergency **Stop Button**

02

The safety button can halt the robot in an emergency situation to prevent accidents 03

### Controller

The solid control platform guarantees stable performance in any field based on real-time control and high-speed communication technology

OPTION 02

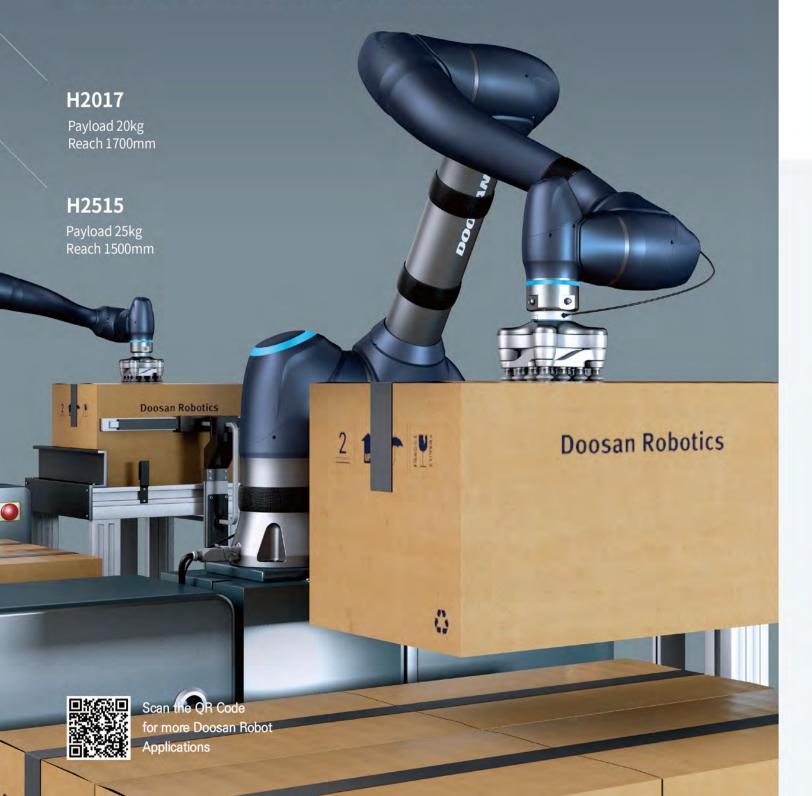

### **Smart Pendant**

### **Teach Pendant**

Offers tablet PC-like ease of use, and with the inclusion of the DART Platform, it is capable of configuring various applications, from simple programming up to advanced control algorithms

# High-Power **H-SERIES**

H-SERIES is the most powerful cobot in the market. Outstanding 25kg payload and 6 torque sensors brings safe work environment for any kind of application

### **KEY FEATURES**

### High<sup>+</sup> Payload

Astonishing payload, easily handles heavy objects up to 25kg

### High<sup>+</sup> Safety

Guarantees superb safety with the industry's best collision sensitivity powered by 6 torque sensors and counterbalance mechanism

25<sub>kg</sub>

### MAIN **APPLICATIONS**

### Palletizing

Heavy objects stacking and palletizing on logistics and automated procedures

### **Machine Tending**

Feed heavy subjects into the CNC machine and load/unload them from/to the pallet

Half the robot weight than cobots in the same class provides more flexible workspace settings with its ease of repositioning, ARM linking and installing of the robot

Stacking, transport and handling of multiple objects simultaneously in fast-paced production procedures, such as those found in the logistics and fabric industries

# Masterpiece **M-SERIES**

M-SERIES is the highest quality premium cobot! 6 high-tech torque sensors provide the highest dexterity for highly sophisticated tasks and ensure the upmost safety with the highest collision sensitivity

DOOSA

### M0609

Payload 6kg Reach 900mm

M0617

Payload 6kg Reach 1700mm

### M1013

Payload 10kg Reach 1300mm

### M1509

Payload 15kg Reach 900mm

### **KEY FEATURES**

### Master<sup>+</sup> Safety

The high-tech torque sensor is capable of detecting subtle force changes of up to 0.2 N, providing the best collision sensitivity level for safety in the industry

Master<sup>+</sup> **Force Control** 

compliance control

0.2 N

### Torque Sensors

### **MAIN APPLICATIONS**

Assembly Traditional assembly tasks like screw driving and gear assembling

#### **Machine Tending** Feed the CNC machine and load/unload the

富

subject into the pallet

### Gluing & Bonding

Spraying of consistent amount of adhesive for gluing and bonding

### **Plastic Injection** Support

Detaching item from mold of injection molding machine and loading onto/unloading from pallet

6 high-tech torque sensors capable of sophisticated tasks contribute to high-level force control and

The Smart Setup function allows quick system installation and immediate operation, as it automatically measures inclination angles, tool position and weight

Welding

Welding parts like skilled welder by various paths with certain quality

1	6	2		
((	( 0	3	)	
1	6	**	L	
_	-	X		1

#### Polishing & Deburring

Burr removal and surface polishing after processing

**Press Forming** 

Picking up panel for loading onto/unloading from press machine

Service

Safely and repeatedly performs pre-defined tasks in accordance with user needs in service industries like medial and F&B

### **DOOSAN HERITAGE**

## **DOOSAN ROBOT LINE-UP**

#### Super SAFE

#### Five workspace settings to fully protect the operator

Five workspace settings protect the operator's safety and improve work efficiency.

- Collaborate zone
- Collision detection mute zone
- Protected zone
- Limited tool Orientation zone
- Customized collision sensitivity zone

#### Outstanding product safety certified by international organizations

Doosan robots have received prestigious safety certifications worldwide as well as safety certifications from NRTL in the U.S., CE in Europe and KCs in Korea.

#### One-touch programming in just 20 seconds

Doosan robots automatically recognize attached peripherals and suggest ideal work process in forms of various templates from simple material handling to machine tending. It also provides pre-programed skills, commonly used in the field, which makes it very easy to teach the robot even for beginners.

#### Cockpit to guickly and easily teach robots

Through the cockpit (Direct teaching button) on Doosan robots, it is possible to select various teaching modes as well as to save coordinates with simple button operations, allowing easy direct teaching.

#### Super FLEXIBLE

#### Doosan Mate maximizing the utilization of Doosan robots

Doosan Mate is comprised of a variety of industry-leading partner products from grippers to electric tools machines, sensors and software, providing the best automation solutions optimized for customer needs. All registered products are highly compatible with Doosan robots, allowing easy and fast set-up and immediate operation.

#### Convenient communication connections

Doosan robots support the latest communication technologies, even without a gateway, allowing seamless connections with various types of industrial equipment and systems.

\*Supported Communications: RS232/485, TCP/IP, Modbus TCP (Master/Slave), Modbus RTU (Master), RPOFINET IO Device, EtherNet/IP Adapter
